BLUE SHIP PATRIMOINE

FACTSHEET - OCTOBER 2026

BlueShip PATRIMOINE

FROM THE MANAGER

Our Fund is up +0,1% over the month. October was a choppy month: global equities slipped (-0.8% in USD) after a sharp sell-off in the last days of the month.
We made no major change to the portfolio over the month.
The benchmark is benefiting from a rise in global bonds and dollar strengthening, which can both be considered a flight to quality.
In an environment that remains uncertain, we keep a prudent positioning with a very significant cash position.
